

United States Department of Agriculture,

BUREAU OF ANIMAL INDUSTRY.

JOHN R. MOHLER, CHIEF OF BUREAU.

SERVICE AND REGULATORY ANNOUNCEMENTS,

OCTOBER, 1919.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICES REGARDING MEAT INSPECTION.

INSTRUCTIONS REGARDING INSPECTION OF BODY LYMPH GLANDS OF HOG CARCASSES
RETAINED ON ACCOUNT OF TUBERCULOSIS.

Referring to the instructions published in Service and Regulatory Announcements for July, 1914, page 95, under the caption "Instructions Regarding the Inspection of Body Lymph Glands of Hog Carcasses Retained on Account of Tuberculosis," inspectors are advised that incision of the body lymph glands of such hog carcasses may be omitted when careful examination of all the viscera and of the pleural and peritoneal surfaces has shown no lesion in excess of slight lesions in the cervical and mesenteric lymph glands. This instruction is based upon extended investigations showing that incision of the body glands may be omitted with safety in such cases.

REQUEST FOR SOAP SAMPLES.

Inspectors in charge of meat inspection are requested to collect immediately 4-ounce samples of all soaps used for disinfecting hands at establishments under their supervision and to submit them to the Washington meat-inspection laboratory for examination. All samples should be accompanied with a properly executed M. I. Form 161.

AMENDMENTS TO THE PROPERTY REGULATIONS.

Memorandum 293 of the Office of the Secretary, dated and effective October 1, 1919, amends paragraphs 7 and 8 of the Property Regulations of the department to read as follows:

7. *Individual accountability.*—Each employee intrusted with any nonexpendable property shall be required to receipt and, from time to time, account therefor. An employee intrusted with any expendable property shall likewise be required to receipt therefor and, when the chief of the bureau shall so direct, account therefor from time to time. Having receipted for an article an employee may be relieved of responsibility—(1) by delivery of the article to the bureau property clerk and taking a receipt therefor; (2) when authorized by the chief of the bureau, by delivery of the article to another employee of the bureau and taking his receipt therefor; (3) by presenting a certificate approved by the chief of the bureau, or by an employee authorized by the chief of the bureau to approve such certificates, that the article has been consumed

in use, lost, stolen, damaged, or destroyed; (4) by payment to the disbursing clerk or appropriate fiscal agent of the value of the article at that time as determined by the chief of the bureau or other employee designated by him; (5) by sale or other disposition by a board of survey (see paragraph 9 of these regulations); or (6) by abandonment (see paragraph 12 of these regulations).

8. *Property lost, stolen, damaged, or destroyed.*—Whenever any property either expendable or nonexpendable is lost, stolen, damaged, or destroyed, the employee who has custody of the property at the time will forward to the chief of the bureau, through the employee against whom the property is charged on the property records, a certificate showing (1) a list of the articles, (2) the circumstances attending their loss, damage, or destruction, (3) whether his fault or neglect or that of any employee was involved, and (4) if the property was lost or stolen, the action taken to recover the property. When the value of the property exceeds \$10 the certificate shall be sworn to before an officer authorized to administer oaths of office (see Administrative Regulations) or before any of the officers required, empowered, and authorized by law to administer oaths to accounts for travel or other expenses against the United States (see Fiscal Regulations). All such oaths must be taken without expense to the Government.

If the certificate upon examination is found to be satisfactory, the chief of the bureau will authorize the dropping of the property from the property records; otherwise, he will take steps to recover the value of the property from the employee responsible, and promptly transmit any moneys which may be collected to the disbursing clerk or appropriate fiscal agent for deposit in the Treasury. If the amount of the loss is considerable, and it appears that the property may have been lost, stolen, damaged, or destroyed through the fault, neglect, or misconduct of an employee, a board of survey may be appointed by the Secretary, upon recommendation of the chief of the bureau, to determine the responsibility and make recommendation to the Secretary as to what action should be taken by the department in the matter.

PUBLICATIONS IN OCTOBER.

[The bureau keeps no general mailing list for sending publications to individual employees. When a new publication is issued one or more copies are usually sent to each officer in charge of a station. If additional copies are desired for distribution to members of the force or for other use they will be sent on request if possible. Individual employees who wish to obtain any of the publications listed here should apply first to the local officer in charge. If he has no extra copies, application may then be made to the Washington office.]
